HAYS AND UPHAM SHOW COX FIGURES ARE BAD GUESSES

"WASTED SO MANY BILLIONS THAT HE DREAMS IN MILLIONS."

Officials of Republican Committee Tell Exact Financial Plans of Campaign.

New York, Aug. 27.—Will H. Hays, chairman of the republican national committee, replying to the speech of Gov. Cox in Pittsburgh last night, in which the democratic presidential nominee sought to prove that republicans were conspiring to buy the presidency, declared that Mr. Cox had such intimate knowledge of the workings of millions in aircraft production during the war, that he "dreamed in millions."

After studying Mr. Cox's speech, Mr. Hays issued the following statement at republican headquarters:

"Of course, Candidate Cox fails to prove, as he has failed to prove, and will fail to prove, his charges. This is simply because the charges are false."

"He says billions have been put into the republican national committee by sinister influences to corrupt the electorate. He first is reported to have said a hundred million. The secretary Roosevelt said a hundred million. Then Candidate Cox said fifteen million, while now Candidate Cox says eight million."

"Gov. Cox, himself, a millionaire, has had such intimate knowledge of the workings of millions in aircraft production in his state and country that he has been an important member that these men dream in millions."

"They will have an opportunity in Chicago to prove this to the citizens of the country who are counted in the republican party."

"Incidentally, they will have a chance to show to indicate the source of their own money, both of their national committee and other agencies outside of their national committee. They will try to try to aid in Candidate Cox's election."

"A 'Phony' List

Gov. James M. Cox's schedule of republican campaign fund quotas in principle cities of a 'phony list' which I never heard of before," Fred W. Upham, republican national treasurer, declared today on his return from New York.

"Somebody must have played a joke on the governor," Mr. Upham declared.

The national committee has never apportioned any quotas to cities, Mr. Upham said. The only quotas given to states, the money to be used for both state and national campaign purposes. Each state committee has its own quota, which it thought best, Mr. Upham said.

Shows the Report

Denying charges that cost amounts had been collected or were being collected, the republican treasurer exhibited a statement showing collections up to August 15, 1920. Total collections up to which New York state, including the city of New York, gave \$225,324.40 he said.

He reiterated that the budget planned for the national campaign totaled slightly in excess of \$4,000,000. He said that the campaign was planned to raise in excess of \$15,000,000.

Gov. Cox's state assigned the entire quota for state and national purposes to a single city, in other words, the amount collected in the state of Illinois, the entire state quota, the treasurer said.

He cited the governor's figures for New York City, \$1,000,000 and said that was the quota for the entire state of New York for both state and national campaign purposes. He said that the governor's table, \$750,000, is \$500,000 more than the entire quota of the state of Illinois, he said.

"The plan this year also takes into consideration the fact that we are not to be helped by several solicitors. We combined the needs for both national and state campaigns, and solicited the entire amount at one time."

"In many states, New Mexico, Arizona, Tennessee, Kentucky, and North Carolina, for example, the state quota is spent for state purposes for the national campaign."

COX TO MAKE MORE "EXPOSÉS" IN WEEK

New York, Aug. 27.—Gov. Cox, democratic presidential nominee, indicated here today that he would make further "exposés" of the republican campaign funds within a week.

Pausing here for scarcely more than an hour, on his way from Pittsburgh to New Haven, Gov. Cox conferred with republican leaders on the effects of his speech in Pittsburgh last night, at which he presented information bearing on his charge that republicans were raising a \$5,000,000 fund to "buy" the presidency.

The afternoon will be taken up in sports and it is aimed to have two of the best football teams in the country here. In the evening there will be a grand carnival in which everyone is expected to participate in costume. Dancing will close the day's entertainment. LATHROP PITCHES SUNDAY; HAS NOW WON FOUR STRAIGHT

Who's this Winton Six bunch that's coming up from Chicago to play the Samsons Saturday and Sunday?

The Winton Six is an aggregation that has lost only three Sunday games all season against some first class. The organization is made up of ex-major and minor league stars, outstanding among them is Joe Newkirk, an ex-Cub twirler and Tony Carlo, left fielder formerly of the Cubs. Several of the twirlers, hails from the New York state league.

Samson will start Dumont tomorrow against the visitors. Old Bill Lathrop will go on the mound Sunday.

Bill Going Strong

Smiling and looking exceptionally well at present, he has four straight wins to his credit, on four of them a one-hit affair at Lawrenceville, Ill., when the Samsons defeated the Havolines, 1 to 0. Such work deserves all the support that the fans can give him by getting out and cheering by their rooting that he will appreciate his willingness to pitch out of his turn as well as in it.

In the last four games he has pitched a total of 47 1/3 innings, allowing only 15 scattered hits, an average of about four a game. These wins are: Whitewater, 5 to 1; 3 hits; First Prairie, 4 to 1; 7 hits; Havolines, 1 to 0; 1 hit; and Beloit Fairies, 2 to 1; 4 hits.

While Cushman is playing with the Illinois Fairies, it is now certain that he will not belong to either the Gateway city bunch or Samson. He will remain with the Engineers until after Labor day, when he will be sent away from this part of the country where neither team will play against him.

Fordson Farm Tractor

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it solves the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increased production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it solves the labor problem.

The Fordson's first cost is the lowest in the market; and the after or operating cost is lowest. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the United States.

With two presidential candidates trying to keep us out of the war with the Reds, says ex-Senator SOL, it's about time to look out for a late spring draft.

THE DECLINE OF MAX

This is a tale of tails and, if I were really a wag, I might say that a good deal of trouble had been entailed in writing it. In the first place I have had to move a lot of things on my table in order to find space for it; an array (the other half of which the maid broke and cunningly snuck together so it would fall apart in my hands and she wouldn't be blamed), and several smoking utensils, and a little shoe-horn (sweet memories), and a Chinese tea-bowl, and a cork-screw. Oh, go on and make the most of it, Mr. Voistead. All this I moved and now I can go ahead and try to move you, dear reader.

When I was younger I once saw a picture of some monkeys hanging by their tails most comfortably. Under the picture it said "Prehensil Monkeys." I took prehend to mean hang-by-your-tail and as no one has ever disputed it I consider it to be the correct interpretation. Anyhow, from that day to this I have yearned to be prehensil and I have always felt that when the money lost, man as a brother, man lost still more—he lost a charming and valuable supplement to his tail.

What a vehicle of emotion it would have been! Witness the solemn tragedy of impending doom in the royal rage of the kind of beast lashing his tufted member! The haughty ire of offended aristocracy in the angry oscillation of the house cat's supplementary vertebrae! And what infinite possibilities for the temperamental humans were they as well equipped. In the home, a lordly wave could silence the veriest shrew, or a kindly dog-wise undulation soften the hardest heart or reward the gentlest.

An in business or at poker (much the same alas, in these mercenary days) what could we not conceal or our rival reveal! An unconscious tremor might give a clue to a straight successfully drawn to, or studied rigidly hide the presence of the most royal of flushes!

I might say much on this subject, for the "making of many tails there is no end"—except the natural conclusion of the appi dange—but I shall restrain myself before I break into balladry. It would be easy, for instance—

"There's a long, long tail a-wind-ing—"

I shall not, and let me apologize for keeping you so long; your ox-tail soup is doubtless cold, and this is my apology—since my body can not be I insist that my sorrows are at least re-tailed.

SAYS THE PREHENSIL GARDENER.

The desire often ripens before the tomato.

BOYS CONFESS PLOT TO KILL COMISKEY

Chicago, Aug. 27.—A confession of a plot to kill Charles A. Comiskey, baseball magnate and the office force and police guard at the White Sox baseball park office Sept. 15, was made to police today by the three boy bandits who were arrested yesterday in an attempted robbery of a \$50,000 pay-roll of Wilson and company, stockholders' bankers.

According to the police, the three said that they intended to rob the game September 15 when they figured "Babe" Ruth would draw a record-breaking attendance. They also planned to "shoot the evidence" and then flee to Cuba.

James Ryan, one of the trio arrested, confessed at the state attorney's office as being a member of a gang who killed Detective Sergeant Frank McFary recently while the detective was defending a vinegar company's safe against a robbery raid.

CHI WINS DESPITE RUTH'S CIRCUIT SWAT; DODGERS BEAT CUBS

Despite the fact that "Babe" Ruth hit his forty-fourth home run Thursday, the Yankees lost to the White Sox by the overwhelming score of 16 to 4. Three New York pitchers were knocked over for a total of 17 hits.

In the early innings, Philadelphia bunched hits off Cleveland and won 3 to 2. Keefe was strong in the pinches.

The Browns evened the series with the Red Sox, winning Thursday, 3 to 0. St. Louis hit freely.

An even break was the outcome of the Washington-Detroit double header. The Senators took the first in 13 innings, 5 to 4, the Tigers the second, 3 to 2. All because of the Erickson's single produced the winning run in the opener. In the second game, Oldham held Washington scoreless until the ninth when he was knocked off the mound. Ehmanke ended the rally.

NATIONAL LEAGUE

The opening game of the series went to Brooklyn and Chicago lost 5 to 2. The Pirates won the fifth game when the Cubs made four hits scoring three runs to tie the count. Brooklyn made one in the eighth and another in the ninth. Philadelphia blanked Cincinnati, 7 to 0. The Reds were held to four hits by Hubbell. Ring failed to receive support, all because of the Erickson's home run in the fourth, driving in Stock who had walked, gave St. Louis a 2 to 1 win over the Giants.

A close victory was registered by the Pirates over the Braves, Thursday. Powell hit the first ball pitched for a home run and Pittsburgh tied the score in the fourth on Bigbee's triple and Carey's single. Whitfield's safe hit and steal of base, followed by Bigbee's single won the game in the seventh.

AMERICAN ASSOCIATION

When You Drive on Main Street

The next rainy day you are driving down Main Street behind a car that is equipped with Horse-Shoe Cord Tires, don't figure you can stop as quickly on the slippery pavement as the driver ahead. The chain-like grip of the Horse-Shoe tread gives him a decided advantage over you on any kind of road.

With Horse-Shoe Cords, he may turn corners in wet weather at 15 miles an hour without chains. He may even stop suddenly on wet pavements without skidding. He knows that the Horse-Shoe tread will hold his rear wheels firm.

Many local motorists know this. That's why they were first attracted to the Horse-Shoe Cord. And today, like many of the world's largest corporations, the State of California and many municipalities, they use Horse-Shoe Tires exclusively. They know that these tires give less trouble and more miles of service at a lower cost per mile than any other tires they have ever used.

Come in and let us give you a demonstration of this non-skid, long wearing cord tire. Then you'll be convinced.
